Concealed Carry Tactical Skills Class (2 Days)

Violent crime is creeping into every corner of our society and citizens know that it's simply impossible to have Law Enforcement nearby for their own safety every moment of the day. It could happen anytime; in your own house as a home invasion, it could happen at a stoplight as a carjacking, it could happen at IHOP, at work, at a shopping mall, or school as a mass shooting event before any police can possibly respond. Take this course and learn some of the personal defense skills to protect yourself and others. This isn't a beginner's course and it's a deadly serious topic; yet we are giving you some life saving techniques in this course that could make the difference for you and your family.

Course Description:

This comprehensive class builds on the training an armed citizen with a concealed carry permit might have got and adds lifesaving personal defense skills to their training. This two day program is designed towards the intermediate and advanced level shooters. In this program you will be trained and shown tactical skills most citizens have never seen before. Some of this training as previously been dedicated training that police and military units has received and now you can apply that to your own personal defense plan.

Course Topics:

Handgun Retention Skills	Contact & statements with responding police
Cover & Movement Tactics	Flashlight Defensive Tactics
Low light shooting tactics & techniques	Advanced Shooting Techniques
Shooting from seated or grounded positions	
Force on Force scenarios (active shooters, armed robbery, ATM assault, etc).	

Who should Attend

Documented Concealed Carry Permit holders from any state, documented previous training from any state, & police/military ID holders. Any individual authorized to legally own a gun and has a desire to learn personal protection shooting techniques. We reserve the right to discontinue the training for any attendee who demonstrates unsafe behavior. There will be no refund.
